Fairview Home Infusion

A non-profit provider dedicated to unparalleled care for all

FAIRVIEW

"Excellent service and excellent care. Everything went like clockwork. I was very impressed."

—Fairview Home Infusion patient

Compassionate, Professional Care from a Respected Name in Regional Health

Fairview Home Infusion is a non-profit provider dedicated to the highest standards of care for all patients. The services of our infusion-focused care teams—registered nurses, pharmacists and dietitians—are available in Minnesota, Wisconsin, Iowa, North Dakota and South Dakota.

With more than 20 years as a home infusion provider, we have streamlined processes and excellent care protocols. We directly employ more nurses than other providers, helping to ensure an exceptional experience for you and your patients. We take the time to educate patients, working with them until they feel comfortable with the home infusion experience.

Reducing barriers to patient care is a critical part of our mission, whether this means advocating with payers, simplifying the referral process or providing the home infusion expertise to handle complex cases.

An Unparalleled Breadth of Therapies

Fairview Home Infusion can treat all patients. Simply put, if a drug is available for home infusion, whether it's a common antibiotic or a rare enzyme, we have the expertise to provide that therapy. Our affiliation with the University of Minnesota Medical Center places us at the forefront of advanced infusion therapy.

Our experience includes clinical trials, off-label applications and common therapies such as:

- TPN
- Antibiotic/antimicrobial therapy
- Chemotherapy
- Biologics
- Immune globulin (IV and subcutaneous)
- Pain management
- Enteral
- Inotropes
- Many other therapies

Pediatric and Adult Infusion Services

Fairview Home Infusion can provide or seamlessly coordinate a range of services:

- Pre-therapy patient assessment
- Peripherally inserted central catheter (PICC) placement
- Ongoing patient education, care and support
- Home delivery of medication and supplies
- Lab monitoring
- Infusion suite
- Palliative care, social services and rehabilitation

"I love working with your whole team! Great communication, updates and follow-up."

Simple Referral Process

All it takes is one call or contact to coordinate expert infusion care for your patients. To initiate therapy or consult on a referral:

Phone: 612-672-7444
Toll-Free: 800-642-8845
Online: Extended Care Information Network (ECIN)
Fax: 612-672-2234

24 hours a day, 7 days a week

All Major Insurance Accepted

Fairview Home Infusion aggressively advocates for your patients with payers. Our trained insurance specialists handle insurance verification so you don't have to, enabling your patients to begin therapy as soon as possible.

In compliance with USP 797, our IV preparation facilities meet the highest safety and clean-room standards.

Fairview Home Infusion is accredited by the Joint Commission on Accreditation of Healthcare Organizations.
