

## M HEALTH FAIRVIEW SOUTHDALE and RIDGES PGY2 Health System Pharmacy Administration and Leadership Residency

### Program Overview

The Health System Pharmacy Administration Residency is a 12-month program focused on community hospital pharmacy management. The resident will spend time at both M Health Fairview Southdale Hospital and M Health Fairview Ridges hospital.

M Health Fairview Southdale Hospital is a 334 bed medical center that provides comprehensive medical services in more than 40 specialty services. M Health Fairview Ridges Hospital is a 171 bed medical center providing state-of-the-art care to residents of the Minnesota River Valley since 1984.

Each resident's experience is tailored to individual interests and skill development needs. The program focuses on the development of leadership and management skills across two hospitals within M Health Fairview.

**PGY2 Program Purpose:** PGY2 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.
