Program Overview

The Pharmacy Residency Program (PGY1) at M Health Fairview Southdale Hospital in Edina, MN is a 12-month program consisting of core and elective learning experiences that are tailored to the resident’s interests.

M Health Fairview Southdale Hospital is a 329-bed medical center that provides comprehensive medical services in more than 40 specialty services including; cardiology, orthopedics, oncology, obstetrics, neurosciences, critical care, vascular surgery, and emergency medicine. The Pharmacy Residency Program consists of direct patient care experiences in medicine, surgery, critical care, cardiology, and other various specialty areas. Each resident’s experience is tailored to individual interests and clinical skill development needs. The program also focuses on the development of leadership, management, and teaching skills. The resident will also work closely with residents at other M Health Fairview sites.

PGY1 Program Purpose: PGY1 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

“The M Health Fairview Southdale PGY1 Pharmacy Residency Program was a rewarding experience as each day presented a new challenge and opportunity to grow. My favorite part is that the program is customizable to the resident’s needs. The knowledge I gained and relationships I built will last a lifetime.”
- Megan Reed, PharmD, PGY1 Program Graduate 2019

Required Experiences
