Your generosity funds programs and services that make a real, direct impact on the health of our patients and communities. In 2017, Fairview Foundation distributed $3.6 million to support Fairview programs and services. Thanks to donors like you, we are changing lives and improving health.

You help us make a difference in so many lives. Thanks to you, we can:

• Provide access via remote video to interpreters so patients and families can see the translator and receive the best care possible.

• Bring hope to Parkinson’s patients through a program designed to manage symptoms and increase energy, flexibility, and strength.

• Improve the health and well-being of our neighbors by offering services such as blood pressure checks, exercise classes, and health education in high-need neighborhoods.

• Provide comfort to hospice patients and their families through spiritual care, music, massage, and aromatherapies.

Where the money goes

$1,214,425 Patient care and services
$1,185,716 Capital needs and medical breakthroughs
$621,627 Caring for the health of our communities
$554,659 Education and provider support

$3.6 M

Dollars raised

$1,689,039 Individuals
$457,667 Foundations
$417,555 Government/organizations
$377,686 Corporations

$2.9 M*

* In addition to these dollars raised, the foundation helped secure a $1.4 million grant to help combat opioid abuse. This grant is reported elsewhere in the system and is not included in the foundation’s financial summary.

Our vision  Fairview is driving a healthier future.
Our mission  Fairview is driven to heal, discover, and educate for longer, healthier lives.
