

M HEALTH FAIRVIEW UNIVERSITY OF MINNESOTA MEDICAL CENTER PGY1 Pharmacy Residency

Program Overview

The Pharmacy Residency Program (PGY1) is a 12-month program located at M Health Fairview University of Minnesota Medical Center.

At M Health Fairview University of Minnesota Medical Center, we balance the latest in technology and treatments with patient-centered care. As the core teaching hospital of the University of Minnesota Medical School and College of Pharmacy, our hospital is among the most respected in the nation, providing superior health care results. The Pharmacy Residency Program consists of direct patient care experiences in medicine, surgery, critical care, pediatrics, and various specialty areas. Each resident's experience is tailored to individual interests and clinical skill development needs. The program focuses on the development of clinical, leadership, and teaching skills.

PGY1 Program Purpose: PGY1 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

"The PGY1 Pharmacy Residency at M Health Fairview University of Minnesota Medical Center provided challenging clinical experiences, various teaching opportunities, and constant interdisciplinary collaboration. Throughout the year, the preceptors supported me both personally and professionally. This PGY1 experience allowed me to achieve all that I hoped for going into residency training."
- Nicole Draker, graduate 2020
