

M HEALTH FAIRVIEW UNIVERSITY OF MINNESOTA MEDICAL CENTER PGY2 Oncology Pharmacy Residency

Program Overview

The Oncology Specialty Residency Program (PGY2) offers two positions as a twelve-month program. The primary sites include the M Health Fairview University of Minnesota Medical Center (UMMC) and the M Health Fairview Clinic and Surgery Center (CSC). Additional clinic and pharmacy locations within M Health Fairview will serve as additional rotation sites. The program prepares the resident to become an oncology pharmacist through an array of advanced oncology focused core and elective rotations.

PGY2 Program Purpose

PGY2 pharmacy residency programs build on Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency programs to contribute to the development of clinical pharmacists in specialized areas of practice. PGY2 residencies provide residents with opportunities to function independently as practitioners by conceptualizing and integrating accumulated experience and knowledge and incorporating both into the provision of patient care or other advanced practice settings. Residents who successfully complete an accredited PGY2 pharmacy residency are prepared for advanced patient care, academic, or other specialized positions, along with board certification, if available.

Required Rotations

- Adult Inpatient Hem/Onc
- Adult Inpatient BMT
- Pediatric BMT OR Pediatric Hem/Onc
- Investigational Drug Services
- Outpatient Oncology #1
- Outpatient Oncology #2
