PGY–2 Critical Care Pharmacy Residency

Program Overview

The PGY2 Critical Care Residency Program is a twelve-month program located at the University of Minnesota Medical Center and University of Minnesota Children’s Hospital. This program prepares the resident to become a critical care clinical pharmacist through an array of advanced ICU-focused core and elective rotations.

At the University of Minnesota Medical Center, we balance the latest in technology and treatments with patient-centered care. As the core teaching hospital of the University of Minnesota Medical School and College of Pharmacy, our hospital is among the most respected in the nation, providing superior health care results. This program will provide development in clinical and problem solving skills as well as communication, leadership, and teaching in critical care.
