

## Important Lab Test Announcement

To: Providers that order Post Vasectomy Semen Analysis  
From: Craig Rousar, Laboratory Manager, Hematology department  
Date: January 31, 2017  
Subject: Discontinue centrifuging Post Vas specimens

Starting on Tuesday February 6, 2018, HealthEast Medical Laboratories will no longer centrifuge Post Vasectomy semen specimens in accordance with the American Urological Association (AUA).

Each Post Vasectomy result will included the following interpretive comment:

***“In accordance with AUA guidelines, a concentrating technique (centrifugation) was not performed on this sample.”***

If you have any questions or concerns, please contact Craig Rousar, Core Lab Manager, at 651-232-3002 or at [carousar@healtheast.org](mailto:carousar@healtheast.org) or Dr. Joseph Leverone, HealthEast Laboratory Director at 651-232-3573.
