

ANNOUNCEMENT

To: Providers that order Testosterone, Total and Bioavailable
From: Craig Rousar, Chemistry Lab Manager, St. Joseph's Hospital
Date: June 11, 2018
Subject: Change in order status for Testosterone, Total and Bioavailable

Starting on Tuesday June 12, HealthEast Medical Labs will be sending Testosterone, Free and Total to Fairview Medical Labs. This is part of our on-going efforts to consolidate testing between the labs.

The methodology for Total Testosterone is LC/MS/MS. The methodology for Free Testosterone is the Vermeulen calculation that incorporates Total testosterone and SHBG (Sex hormone binding globulin).

We are going to take this opportunity to discontinue offering Testosterone, Total and Bioavailable.

If you have any questions or concerns, contact Craig Rousar, carousar@healtheast.org, at 651-232-3002.

Thank you for using HealthEast Medical labs.
