

ANNOUNCEMENT

To: HML clients that order charcoal culture swabs for supplies

From: Marcia Loween, Laboratory Director
Camilla Fischer, Microbiology Manager
Sarah Mason, Microbiology Technical Specialist
Nuchi Vue, HML Supplies

Date: March 26, 2019

Subject: Discontinuation charcoal culture swabs

Effective immediately, HealthEast Medical Laboratories will no longer supply charcoal culture swabs. The replacement collection container for the charcoal culture swab will be the Eswab regular (white cap) container. The Eswab regular (white cap) container and charcoal culture swabs are both acceptable collection containers for the following tests:

1. Culture, Genital (LAB465, VCU)
2. Culture, Neisseria gonorrhoeae (LAB1277, GC)

Please order the Eswab Regular (White Cap) in place of the charcoal culture swabs. Charcoal swabs will be accepted for testing until supplies have been depleted. Thank you.

Charcoal Culture Swab - no longer available to order

Eswab regular (white cap) - replacement for charcoal culture swab
