LAB TESTS DIRECT

HEALTHEAST MEDICAL LABORATORY

Personal Diagnostic Health Care.

Options for individuals who want more control over their own health care. Health tests you choose

If you participate in a managed health care plan or have health insurance, you are aware of the rising costs of medical care - including laboratory testing. Some individuals find it difficult to receive routine laboratory testing since some tests are considered "screening" and are not covered by Medicare and other major insurance plans.

GENERAL INFORMATION

- > A physician's order is not required for these tests.
- > Come directly to the hospital laboratory.
- > Pay for testing by cash, check, Visa® or MasterCard®.
- > This service is available Monday through Friday from 7 am to 5 pm. No appointment is necessary.
- > The results will be mailed directly to you. You are encouraged to share them with your health care provider.
- > Most test results will be mailed to you within three to five working days.
- > Anyone under age 18 must be accompanied by a parent or guardian.
- > A pathologist will review critical test results.
- > A list of HealthEast physicians in the area will be provided upon request.

Testing is performed by HealthEast Medical Laboratory, licensed and accredited by federal and regulatory agencies, ensuring accurate and precise laboratory results.

Reference ranges are provided for certain tests and are designed to help you interpret results. A normal result does not guarantee that you do not need medical attention; likewise, an abnormal result may not necessarily be abnormal for you. Your complete medical history must be considered.

You are responsible for contacting a physician regarding your test results, if necessary.

LOCATIONS

Drawing sites are conveniently located close to home. No appointment necessary.

Any questions now or after you receive your test results can be answered 24 hours a day by the Registered Nurses and staff of HealthEast Care Connection: call 651-326-CARE (2273)
