Photo Tour

Fairview Acute Rehabilitation Center
Every patient has a story, and receives close personal care from doctors, nurses, therapists, and staff.
Located on the University of Minnesota Medical Center – West Bank campus. Valet parking is conveniently located under the building.
Natural light and views of nature help create a relaxing environment for healing.
Occupational therapists help patients return to their activities of daily living. Family members are welcome to observe therapy sessions.
Physicians meet with patients regularly to answer questions and assess progress.
Our front desk staff is always available to answer questions and make sure patients and family members have all the information they need.
Community spaces allow patients to talk with family members, friends, and providers.
The open, well-equipped gym allows patients to work on everything from walking to getting in and out of a car, preparing them for their return to everyday life.
Our therapists have advanced certifications in a wide range of disciplines, and create an effective, highly customized rehabilitation plan for each patient.
We invite you to come tour our facility and meet our caring team of therapists, nurses and physicians.
